Journal of Hydrology

Contents of Volume 187

Vol. 187 Nos. 1–2 **December 1996**

Special Issue: Fractals, Scaling and nonlinear variability in hydrology

Research Papers

Foreword 1
Energy decomposition of rainfall in the time–frequency–scale domain using wavelet packets
V. Venugopal and E. Foufoula-Georgiou 3
Multifractal analysis of daily spatial rainfall distributions
J. Olsson and J. Niemczynowicz 29
Scaling and multiscaling models of depth–duration–frequency curves for storm precipitation
P. Burlando and R. Rosso 45
A new approach to hydrologic modeling: derived distributions revisited
C.E. Puente 65
On scaling exponents of spatial peak flows from rainfall and river network geometry
V.K. Gupta, S.L. Castro and T.M. Over 81
Fractal river networks, Horton's laws and Tokunaga cyclicity
D.G. Tarboton 105
On the description of the basin effective drainage structure
G. Roth, P. La Barbera and M. Greco 119
On the fractal description of natural channel networks
M. Veltri, P. Veltri and M. Maiolo 137
Informational entropy of fractal river networks
P. Claps, M. Fiorentino and G. Oliveto 145
Fractal analyses of tree-like channel networks from digital elevation model data
R. Moussa and C. Bocquillon 157
On the fractal structure of networks and dividers within a watershed
C.E. Puente and P.A. Castillo 173
Scaling properties of topologically random channel networks
C. Agnese, F. D'Asaro, G. Grossi and R. Rosso 183
Transports in fractal porous media
P.M. Adler 195
Characterization of pore space in chalk by multifractal analysis
J. Muller 215
Scaling properties of porous media with power-law particle size distributions
P. Ghilardi and G. Menduni 223
Hierarchical structures and hydraulic properties of a fracture network in the Causse of Larzac
P. Barthélémy, C. Jacquin, J. Yao, J.F. Thovert and P.M. Adler 237

Guide for authors 259

Vol. 187 Nos. 3–4 January 1997

Research Papers

Evaluation of solutions for deep constant-head boreholes
J. Xiang and L. Chen 265

Effect of nitrate, organic carbon, and temperature on potential denitrification rates in nitrate-rich riverbed sediments
K.S. Pfenning and P. B. McMahon 283

Asymptotic solutions for sorption of water by a heavy clay soil
S.H. Emerman 297

The influence of parent material on small-scale spatial changes in streamwater chemistry in Scottish upland catchments
M.F. Billett, J.A.H. Lowe, K.E. Black and M.S. Cresser 311

Temperatures and thermal gradients in the Senegalese Maastrichtian aquifer: simulated test on their effect on flow discharge
Y. Travi, P. Pizard and M. Betton 333

Variation in sapwood area and throughfall with forest age in mountain ash (*Eucalyptus regnans* F. Muell.)
S.R. Haydon, R.G. Benyon and R. Lewis 351

Using the stream function for flow governed by Poisson's equation
H.M. Haitjema and V.A. Kelson 367

Cumulative Author Index Volumes 174–186 387
Cumulative Subject Index Volumes 174–186 408
